Related Compounds.....1.4%

INERT INGREDIENTS:.....80.0%

Total100.0%

KEEP OUT OF REACH OF CHILDREN

CAUTION See Back Panel for
Additional Precautions.

Net Wt 2.29 oz (65 g)

For use in unoccupied areas; not for use in homes except garages, attics, crawl spaces and sheds occupied by people for less than 4 hours per day.

How It Works:

The Hot Shot® No-Pest® Strip₂ utilizes controlled release technology to slowly diffuse a deep penetrating vapor in enclosed spaces for up to 4 months. The clean, odorless vapor is evenly distributed throughout the enclosed treatment area, killing visible and hidden insects on contact and preventing new insect infestations while you're away. Just hang or stand up in garages, storage units, attics and more.

STOP READ ENTIRE LABEL BEFORE USE.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Remove pre-assembled Hot Shot No-Pest Strip from sealed bag when ready to use. Place in desired location away from windows and out of reach of children and pets. Drafts, weather and other conditions may affect the performance, but treatment usually lasts for four (4) months. One 65 g strip will treat 900-1,200 cu ft. Record the date of installation and replace with a new, fresh, full-strength strip at the end of four (4) months or when effectiveness diminishes. Do not use in food/feed processing or food/feed manufacturing or food/feed service establishments. Non-food/feed areas of these establishments where the product can be used are areas such as garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets, and product storage (after canning or bottling). **This product controls flies, gnats, mosquitoes, moths, silverfish, cockroaches, spiders, beetles and earwigs.**

WHERE TO USE

For Use In The Following:

- Vacation Homes
 - Farm Houses
 - Mobile Homes
 - Ranch Houses
 - Cabins
 - Boats
- That are unoccupied for more than 4 months immediately following placement of pest strip.
- Garages
 - Attics
 - Boathouses
 - Museum Collections
 - Storage Units
 - Crawl Spaces
 - Sheds
- Occupied by people for less than 4 hours per day.

Controls flies, mosquitoes, gnats and other insects as listed.

TRASH DUMPSTERS

For control of flies in dumpsters, attach appropriate sized strip (one 65 g strip treats 900-1,200 cu ft) inside dumpster. Keep lid on dumpster closed.

FOR USE AS A FLY KILLER

Kills flies and other insects as listed for up to four (4) months. Remove from sealed bag and hang or stand, out of reach of children and pets, in an open space of an enclosed area, away from windows. One 65 g strip will treat 900-1,200 cu ft which is about equal to an average room 10' x 13' with an 8-foot ceiling for up to four (4) months. In a larger room if more than one strip is required, keep them at least 10 feet apart. Record the date of installation so that the old strip may be replaced with a new, fresh, full-strength strip at the end of the four (4) month period or when effectiveness diminishes.

STORAGE AND DISPOSAL

Storage: Do not contaminate water, food or feed by storage or disposal. Do not open or remove from package before ready to install. Store in a cool dry place. **Disposal: If empty:** Do not reuse container. Place in trash or offer for recycling if available. **If partly filled:** Call your solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
